Tools: Git, GitHub, Postman

Work Experience

Web Developer: Ideal Corporate Services (Ideal Software) | *January 2026 – Present*

Web Developer: -HEPL [December 2024 – December 2025]

Projects

E-Commerce Website

Live URL: <https://kodaichoco.com/>

Tech Stack: Laravel, Blade, PHP, JavaScript, AJAX, jQuery, XAMPP

- Developed a **full-featured e-commerce platform** from scratch
- Implemented product listing, cart, checkout, order management, and admin panel
- Handled real-time pricing, order processing, and secure data storage
- Optimized performance and ensured smooth user experience for live customers

Intelligent Invoice Processing & Approval System

Tech Stack: Laravel, Blade, PHP, JavaScript, AJAX, jQuery, XAMPP

- Developed a Laravel-based invoice system to scan, upload, and capture key invoice details.
- Implemented approval workflows for easy approval, rejection, or correction of invoices.
- Added bulk selection and reporting features to improve efficiency and accuracy.
- Created a secure portal for the Tax Support Team, ensuring safe access to invoices.

Student Management System

Tech Stack: React.js, Spring Boot, MongoDB, REST API, Axios, JavaScript

- Built a full-stack web application to manage student records.
- Implemented CRUD operations with RESTful APIs and form validations.
- Developed a responsive UI for a smooth user experience and scalable architecture.

Employee Ticketing Tool

Tech Stack: CodeIgniter, PHP, MySQL, JavaScript, AJAX

- Developed a ticketing system for managing employee requests and issues.
- Implemented backend logic to create, update, assign, and close tickets efficiently.
- Integrated AJAX for real-time updates and seamless user interactions.
- Ensured secure data handling and a user-friendly interface for HR and team leads.

Education

IFET College of Engineering, Viluppuram

B.E. in Electronics and Communication Engineering | CGPA: 7.3 (2020 – 2024)
